Exemption sheet for Products without harmful chemicals

What are Dangerous Goods?

A product will be regulated as dangerous good if any of its components are classified as dangerous goods or substances, or are otherwise regulated by any official organization that governs safe transport, storage, or handling of goods.

For more information on dangerous goods, please consult the Dangerous Goods Identification Guide in Seller Central Help.

Examples of Dangerous Goods

Important note: This exemption sheet will be accepted only for **products that do not contain possibly harmful chemicals and/or substances** (e.g. alcohol, isopropanol, acetone, hydroxide, sodium, acid, etc.). If your product is regulated as dangerous good or if it contains possibly harmful chemicals and/or substances (e.g. cleaners, paint products, essential oils), please provide a Safety Data Sheet (to be obtained from your manufacturer).
This exemption sheet must be **completely filled out** before submission: **all cells in red must be informed**, across all 3 pages (move to the right). For c**omplete instructions**, please go to the **Instructions tab of this Excel file**.

Date: 2026/6/2 First name: **Tang** Last name: **Gaofeng**

Disclaimer: By submitting this document to Amazon, **you hereby confirm** that you have **checked the regulations** applicable to your product and that **the information you provide is correct**. In the case of **erroneous or incomplete information** provided through this exemption sheet, **Amazon reserves its right to take the corresponding actions without prior notice**. These actions may include but are not limited to: blocked purchase order placement, classification and inbounding delays, and disposal of existing inventory at your expense.

If there is anything else you would like to tell us about your products, please use this box to share comments
